W. C. BOREN, President

J. W. McLENNAN,

This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

INTRODUCTION

Hill Directory Company, Inc., publishers of the Greensboro City Directory, present to subscribers and the general public this, the 1931 edition.

Confidence in the growth of Greensboro's industry, population and wealth, and in the advancement of its civic and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Greensboro to the world.

The enviable position occupied by Hill's directories in the estimation of the public has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Greensboro Directory will fulfill its mission as a source of authentic information pertaining to the community.

FOUR MAJOR DEPARTMENTS

The several essential departments are arranged in the following order:

The Buyers' Guide, pages 25 to 76, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Greensboro and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and as such merits a survey by all buyers eager to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Greensboro, the necessity of having this kind of information immediately available is very great, and, frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

The Alphabetical List of Names of residents, business firms and corporations is included in pages 77 to 556. A feature of this section is the inclusion of the wife's name in parentheses following that of the husband.

The Directory of Householders, including Street and Avenue Guide, covers pages 557 to 704. In this section the named streets and avenues are arranged in alphabetical order, followed by the numbered streets in numerical order; the residences and business

houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

The Classified Business Directory is included in pages 705 to 760. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between buyer and seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

COMMUNITY PUBLICITY

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Greensboro, for business men everywhere realize that the city directory represents a community as it really is.

THE GREENSBORO DIRECTORY LIBRARY

Through the courtesy of the publishers of the Greensboro City Directory a Directory Library is maintained in the offices of the Greensboro Chamber of Commerce for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the United States and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

Publishers.

STATISTICAL REVIEW

Population—53,569. White population—Males, 18,817; females, 20,226. Colored population—Males, 6,470; females, 7,580. Foreign population—472.—*U. S. Census, 1931.*

Area—17.4 square miles. Altitude—843 feet. Mean annual temperature—58.8 degrees. Average annual rainfall—46.76 inches.—*U. S. Weather Bureau.*

Parks—1,500 acres. Assessed valuation—\$106,500,000. City debt—\$15,829,000—*City Auditor.*

Class A-2 airport. Two passenger and four mail planes north and south daily.

Building permits issued—\$4,039,760 yearly (average for past five years).—*City Permit Office.*

Post office receipts—\$424,748 (1930).—*U. S. Post Office.*

Bank clearings—\$256,664,000 (1930).—*Greensboro Clearing House.*

Telephones in service—9,467.—*Southern Bell Telephone Co.*

Industry—92 establishments, employing 6,811, with an annual payroll of \$5,665,000 and a yearly output of \$38,782,000 value of products.—*1929 Census of Manufacturers.*

Retail trade—624 stores, with annual sales of \$26,500,000. Population of 50-mile trading area—908,950.—*U. S. Department of Commerce and Market Survey.*

Churches—57.

Volumes in library—136,000.

Newspapers—2 dailies: Greensboro Daily News, 36,055 A. B. C. circulation; Greensboro Daily Record, 12,786 A. B. C. circulation.

Hotels—8, with total of 900 rooms.

Railroads—Southern, Atlantic and Yadkin.

Hospitals and sanatoriums—8, with 400 beds.

Amusements—8, with seating capacity of 6,000.

—*Chamber of Commerce.*

Education—22 public schools. Enrollment of 10,207 (1930-31). 329 teachers. Value of public school property about \$5,000,000.—*Greensboro School Board.*

Municipal statistics—Total street mileage, 270, with 138 miles paved. 96 miles of gas mains. 130 miles of sewers. 16 miles of electric street railway. Capacity of municipal water works, 1,023,000,000 gallons; daily average pump, 4,000,000 gallons, with 166 miles of mains and plant valued at \$2,750,000. Fire department employs 47 full-time men and has property valued at \$350,000. Police department has 58 men.—*City of Greensboro.*

GREENSBORO

"Pivot of the Piedmont"

AERIAL VIEW OF GREENSBORO

History

On March 15, 1781, the Battle of Guilford Courthouse was fought, five miles from what is now Greensboro. So intent was General Nathaniel Greene on crippling Cornwallis that he little realized he was to title a city of the future. Although the battle was not decisive, General Greene fought so fiercely that Cornwallis entered the Battle of Yorktown unable to stem the triumphant wave of the American forces, and the victory at the end of the Revolution has been laid by authorities to the result of the Battle of Guilford Courthouse. The scene of this battle is now Guilford Courthouse National Military Park, a mecca for tourists and students of history.

Guilford County was settled in 1772 by Scotch-Irish and German stock from Pennsylvania, and English and Scotch

Highlander immigrants. It was named for Frederick, Earl of Guilford, better known as Lord North. Its people were simple and rural. They possessed no large estates or wealth. They were intensely religious, democratic, arduous in the pursuit and advancement of education, energetic and thrifty, home-loving and liberty-seeking. The original county seat was Martinsville, where was fought the Battle of Guilford Courthouse.

In 1808 Greensboro was founded as the county seat of Guilford and named for the famous General Greene. The town site was located in the exact center of the county. Commissioners paid Ralph Gorrell \$98 for forty-two acres of land, and the new county capital and courthouse was laid off there.

Almost from its beginning Greensboro forged ahead in education. Dr. David Caldwell established his noted "Log College," the forerunner of several

WORLD WAR MEMORIAL STADIUM

academies and schools founded in 1816, 1820, 1833 and 1836, leading up to the chartering in 1838 of Greensboro Female College, the grading of public schools in 1872, the establishment of North Carolina College for Women in 1892, and the building of three negro colleges.

Prior to 1860 the city was Whig, and opposed to secession. John A. Gilmer, of Greensboro, was offered a place on Lincoln's cabinet, but the city, of course, finally supported the State and the Confederacy. It was at Greensboro that General Joseph E. Johnston disbanded his army, following his surrender to Sherman, and it was in the railway station here that Jefferson Davis held his last cabinet meeting. Greensboro's citizens have always taken a prominent part in state affairs. John M. Morehead, as Governor, was one of the State's foremost proponents of good roads as early as 1840, and Edw. B. Jeffries is now chairman of the State Highway Commission, which administers the entire highway system of the State, North Carolina being the first state to consolidate state, county and township roads under a single control.

Greensboro had a cotton mill as early as 1834, but it was in Reconstruction days that it began to be an important commercial and industrial factor. Its central position in the state then, as now, was its chief reason for growth. Here three main traffic arteries (Federal highways) converge. In 1856 came the first railroad (built by the State).

At the turn of the century Greensboro's real growth began. In 1892 came Caesar and Moses Cone to establish their cotton mills, and to begin such well-balanced industrial development as is rarely seen. Steadily ahead Greensboro

has forged industrially, commercially, and educationally, capitalizing its advantages of accessibility, climate, ideal labor conditions, agriculture, power, transportation, raw materials and a spirit of progressiveness. Let us look at Greensboro today.

Location

Greensboro is the pivot and focal point of the rich "Piedmont" section of the two Carolinas and a part of Virginia. It is equidistant from Atlanta and New York, each being twelve hours by rail and five by air. Here also crosses the main East-West traffic arteries of the State and one of the main North-South highways. Other important roads converge at Greensboro to make it the hub of highway transportation.

The Piedmont area of North and South Carolina contains 42% of the population of the two states, and produces over 73% of their industrial output. From Greensboro into all sections of the Piedmont diverge the belts of traffic, over railroads and highways. That Greensboro is the logical, dominant "pivot" of this area is demonstrated by the fact that over 1,500 traveling salesmen and agency representatives have made their homes and headquarters here.

Two railroads serve Greensboro: the Southern and the Atlantic and Yadkin. Forty-eight passenger trains arrive and depart daily in six directions from a new and modern \$1,000,000 station. The main North and South double-track line of the Southern intersects the main East and West trans-state line of the Southern at Greensboro. All important

PAGEANT POSED ABOUT STATUE OF GENERAL NATHANIEL GREENE AT
SESQUI-CENTENNIAL CELEBRATION OF BATTLE OF GUILFORD
COURTHOUSE, JULY 4, 1931

grade crossings have been separated to safeguard life and property and to speed traffic. Sixty-five buses leave here daily for every section of the State, as do a complete system of regulated motor transport lines.

Two northbound and two southbound air mail planes leave the Greensboro airport daily, besides two passenger planes in each direction. A letter mailed here after business hours will be in New York or Atlanta the following morning by rail, and in Chicago that morning by air.

Municipal Government

Greensboro has been especially fortunate in its selection of those men into whose hands its affairs of government are placed, and great municipal progress has been made by means of the complete confidence held by the taxpayers in the integrity and ability of the municipal officials. With a councilmanic-city manager form of government and non-partisan elections, modern machinery is provided for the efficient dispatch of the city's business, which insures the services of business leadership of the highest character. At the helm of Greensboro's municipal government there have long been business men of the highest character and business judgment, often at great personal sacrifice to themselves.

Among those who have served on the city council are men who have made outstanding successes of their own business. These men have brought to the city a managerial skill never possessed by cities influenced by petty partisan politics. As a result the physical facili-

ties of Greensboro are strikingly attractive and effective.

Greensboro has good water, and plenty of it, carefully safeguarded as to purity and sanitary distribution. The water works have a capacity of one billion, twenty-three million gallons, with a twenty-one million gallon reservoir for filtered water, a supply sufficient to serve the city for many years to come.

The sewer system is comprehensive, well-planned and adequate, with 130 miles of mains laid. A highly effective modern disposal system is in operation, and enlargements to accommodate future needs are under construction.

A well-planned program of street-widening, as well as paving, has been and is being carried on under a comprehensive city plan designed to provide Greensboro unusually adequate intra-city transportation facilities. The mileage of paved streets in the corporate limits has steadily increased from 32 miles in 1922 to 138 miles in 1929. Thoroughly modern automatic traffic control systems have been installed at twenty-five possible danger points. The streets, totaling 270 miles, are well-kept and clean.

Greensboro's public school system is a point of genuine pride, it having been recently rated 96.4 out of a possible hundred by the North Carolina Department of Education. The 10,000 school children have 22 modern school buildings, including two junior high schools and a new senior high school. The municipal school plant has a total valuation of about \$5,000,000. There are 329 instructors, and the annual budget is

NEW UNION RAILROAD STATION

three-quarters of a million dollars. The excellent collegiate educational structure will be commented on later.

An up-to-date fire department consists of 47 men, efficiently governed and equipped with modern apparatus. Greensboro has one of the most complete fire alarm systems in use today. Every part of the city and many important buildings are covered with modern alarm boxes. Greensboro's record in reduction of fire losses is outstanding. In 1927 the inter-city award was won for the lowest fire loss of any city in its class in the United States, and in 1928 and 1929 honorable mention was received in the same contest. There are five station houses strategically located in the city, and the equipment has a value of \$350,000.

Greensboro's police department com-

prises 58 officers and men. It is provided with modern physical facilities, radio intelligence equipment, a complete and efficient identification bureau, and a comprehensive system of city-wide telephone signals with centralized control. Short-wave radio transmission is being installed at headquarters to maintain constant communication with "roving" police automobiles. Greensboro has long been kept free from lawlessness such as prevails in many other cities.

Two essential steps have been taken in planning for the future—the adoption of a comprehensive city plan administered by a competent planning commission, and the enforcement of a modern building code. Zoning laws have been passed to maintain desirable neighborhood classifications. Municipal activity has been governed insofar as

GUILFORD COUNTY COURTHOUSE

CURRY TRAINING SCHOOL—NORTH CAROLINA COLLEGE

possible with an eye to the future growth of Greensboro.

A Healthful Place to Live

Greensboro is blessed with a mild, life-prolonging, delightful climate. Its average monthly temperature compares favorably with that of famous European resorts along the Mediterranean shores of western Italy and southern France. Greensboro has neither bitter winters nor oppressive summers, but rather only a moderate fluctuation from the coldest to the warmest days.

Greensboro's altitude (843 feet) and drainage practically eliminate "low country" ailments, such as malaria fevers. The air is clear and bracing, with no violent atmospheric disturbances. The Government Weather Bureau figures show that Greensboro has more clear days (136 per year) than Jacksonville (129), Miami (99), Tampa (126), Atlantic City (123), or Asheville (124). Greensboro has comparatively little snowfall (total average, 6.8 inches per year) as compared with such centers as Atlantic City (16.9), Denver (40.4), Asheville (11), Omaha (19.9), Wilmington, Del. (44.3), and Chicago (33.7).

United States Weather Bureau reports for Greensboro:

Normal average temperature (annual), 58.8 degrees.

Average humidity, 53.185.

Annual precipitation, 46.76 inches.

Greensboro is only three hours' drive from those famous winter resorts—Pinehurst and Southern Pines, and only four to six hours' drive from mountain summer resorts such as Asheville, Blowing Rock, Linville, Roaring Gap, and Chimney Rock. Its climate is the "happy

medium" between that of these resort centers, being on the plateau between the mountains and the coastal plain. Taking advantage of this climatic ideal, a beautiful all-year resort center has been established at Sedgefield, near Greensboro, which has become widely known as a golfer's and sportsman's Paradise. High daytime temperatures give relief from the severity of Northern winters, and low night temperatures permit comfortable sleep, in contrast to the enervating heat prevailing further south.

Recreational Facilities

Greensboro is the sports-lover's Paradise. Golf, tennis, horseback riding, hunting of all sorts, fishing and a host of other sports are available either in Greensboro or in the immediate vicinity. A prominent part of this phase of the city's life is played by the new World War Memorial Stadium, within a few blocks of the heart of the city, which attracts many of the major college athletic events of the section, and the leading inter-scholastic events. Greensboro has a professional ball club in the Piedmont League and is training headquarters for several clubs belonging to the St. Louis Cardinals. The stadium seats 9,200 persons, and is equipped with modern fields for day or night-time football, baseball, track, tennis and other sports. The stadium was erected in 1927 at a cost of \$150,000, donated by citizens of the city and county.

Greensboro has one public and two private golf courses. The famous Valley Brook course at Sedgefield Inn is a championship layout, where competitions of national import are staged.

JEFFERSON STANDARD LIFE INSURANCE COMPANY BUILDING

The Southern Amateur Tournament was held there in 1930. The Greensboro Country Club course is one of the oldest Class "A" courses in the South. The Hamilton Lakes course, now known as "Starmount," an 18-hole layout of rare beauty, was put in play in the fall of 1930. Designed and built as a championship course, it is being considered favorably for the 1933 National Public Links Tournament. The equable year-round climate here makes Greensboro ideal for golfers.

Greensboro's theatres are modern, both as to their houses and the character of their entertainment. The moving picture houses have a seating

capacity of 6,000. Due in part to the local colleges, Greensboro has, for nine months of the year, the satisfying advantage of fine music, famous singers, outstanding lectures and the like. Such organizations as the Civic Music Association and the college dramatic societies make a real contribution to the esthetic life of the community.

About 1,500 acres of land have been set aside for parks and playgrounds in Greensboro, and the city has the reputation of having more play area per student about its public schools than any city in the country. Three Y. M. C. A.'s, Y. W. C. A., professional league baseball, public and private swimming pools,

SEDFIELD INN AND GOLF COURSE

trap-shooting course, bowling, and similar facilities offer a wide variety of recreational opportunities.

Five miles from the heart of the city is beautiful Guilford Courthouse National Military Park, the scene of the famous encounter between Cornwallis and Nathaniel Greene. The battlefield contains twenty-two memorials to Revolutionary heroes. This historic preserve is visited yearly by thousands of tourists, and in 1931 was the scene of the sesqui-centennial celebration of the battle, which was attended by over 40,000 spectators from all parts of the South and East.

Educational Facilities

An outstanding advantage of Greensboro is its extraordinary educational structure. Six thousand out-of-town students and faculty members attend its schools and colleges.

Greensboro College, organized in 1838 by leaders of the Methodist Episcopal Church, South, has an enrollment of 357 women students and assets amounting to \$1,056,000. North Carolina College for Women, created by legislative enactment in 1891, has a yearly enrollment of about 3,000 and a faculty of 178, and includes a college of liberal arts, a school of

education, a school of music, a school of dramatic art, a school of commerce, a department of health, school of physical education, and a school of home economics. Five degrees are given, including A. B., M. A., and B. S.

Five miles west of Greensboro is Guilford College, organized by the Society of Friends (Quakers) in 1837. Its enrollment is now about 300. On the other side of Greensboro is Oak Ridge Institute, a preparatory military school for boys. It was founded in 1852, and in 1926 became a Junior R. O. T. C. unit. It now has 246 students and an adequate plant valued at \$250,000. It is a preparatory school for college and offers a commercial course.

Other institutions in Greensboro include the Greensboro Bible and Literary School, King's Business College and the Greensboro Commercial School.

Greensboro is a center of education for the negro race as well. Here is the North Carolina Agricultural and Technical College, with a yearly enrollment of 800 and a million dollar plant. Bennett College for Women and Immanuel Lutheran College for ministers and teachers are also here.

Practically every religious denomination is represented among Greensboro's fifty-seven fine churches.

COMMERCE AND INDUSTRY

Present Industrial Structure

In Greensboro textiles predominate, but do not dominate. Industry is well diversified. There are great cotton spinning and weaving and fabricating plants; broad silk and silk hosiery mills; structural steel, foundry and machinery establishments; terra cotta and chemical works. Altogether Greensboro's industries, totaling 92 plants, manufacture \$38,782,000 worth of goods per year. 6,811 workers are employed, who receive over 39 million dollars in wages yearly.

The largest single industry is that of the Cone interests, the White Oak Cotton Mill being the largest denim mill in the world. The Blue Bell Overall Company is the largest overall mill in the country. Three hosiery mills are here, Mock-Judson-Voehringer, Inc., Greensboro Full-Fashioned Hosiery Mill, and the Juvenile Hosiery Company. Greensboro is an outstanding full-fashioned silk hosiery center.

Greensboro is the "home town" of Vick's Vaporub Salve, El Moro, El ReesO and other popular brand cigars, Pomona Terra cotta, Glascock stoves, and a host of other products, including canton flannels and many other textile products, fabricated steel and iron, clay

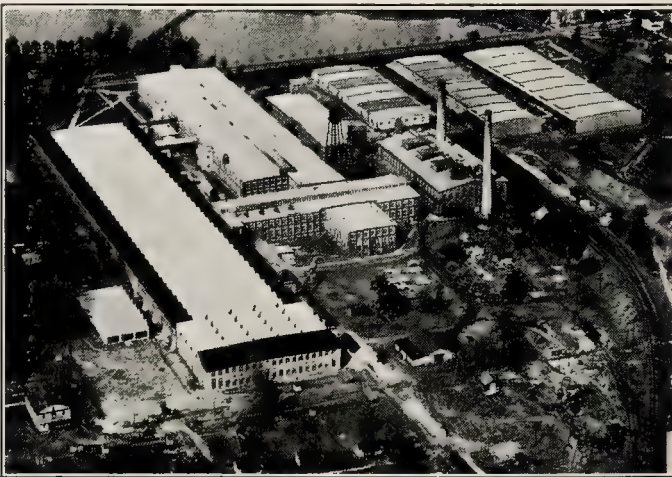

products, medicines, automobile bodies, elastic webbing, lumber products, fertilizers, dairy products, ice, laundry machines, woodworking machines and foundry products.

Numerous advantageous industrial sites are available, with adjoining railroad trackage or highways. There is a plentiful supply of native white and negro labor, easily trained and industrious. There has never been a general industrial strike in Greensboro.

A constant supply of power is available from almost unlimited resources, and at reasonable rates. Great resources of raw materials are close at hand.

These factors have tended to diversify Greensboro's industrial structure, as well as develop it. The city is not dependent on any one line of manufacture, and consequently is immune from those periods of violent depression which paralyze communities in which a majority of the workers are employed in a single line of work.

It is impossible to present adequately here either Greensboro's present or potential industrial advantages. Those interested may obtain from the Chamber of Commerce more detailed information. A research staff is maintained to compile intelligently specific industrial and

WHITE OAK MILL—THE LARGEST DENIM MILL IN THE WORLD

KING COTTON HOTEL

distribution data for responsible inquirers.

rooms. The O Henry, King Cotton and Sedgefield Inn are the most prominent.

Retail Trade

Greensboro is a recognized retail center attracting partial purchasers from an area of from 57 to 75 miles in several directions. Within one hour's auto ride of Greensboro live more than 650,000 people, according to the 1930 census figures. This area has a greater rural and urban purchasing power than any similar area in the Southeastern States, and more paved roads and more automobiles to enable purchasers to reach the market center.

Due to its tremendous market, the retail trade in Greensboro is of a very high type. The shops are modern, and the merchandise handled of a variety and quality above the average. Prominent in the retail life of Greensboro are the two daily newspapers and the several weeklies published here. The Greensboro Daily News, with a morning circulation of more than 40,000, is one of the most powerful in the State. The Record is a fast-growing and popular afternoon daily, with a circulation of more than 15,000.

Greensboro has ten hotels, most of which are of the modern fireproof variety, offering about 1,000 "Class A"

Wholesale Trade

Due to its strategic position in transportation and communication, and the centralization here of the business interchange of the Piedmont area, Greensboro's wholesale houses and agency representatives reach out far beyond the bounds of its retail trade. More than 1,500 traveling men have found Greensboro the most logical place for their homes and headquarters, a great many of them traveling from district offices located here. The city has an abundant supply of modern offices and bonded warehouse space at reasonable rents, and this fact, coupled with an advantageous position, is causing the location here of branch warehouses, district offices, laboratories and agencies.

Within Greensboro's wholesale trade area of approximately 75 miles live nearly a million people, with ten towns of 10,000 or more population. In this jobbing area are 1,844 miles of paved and 665 miles of sand-clay roads, which, together with rail facilities, greatly simplify distribution and close customer contact.

Greensboro holds the dominant place in the State and reaches into the sur-

THE O HENRY HOTEL

rounding states, in hardware distribution. In drugs it is almost as favored, and it is particularly strong in the distribution of food products, produce, tobacco, bread, dry goods and clothing. The Chamber of Commerce has compiled exhaustive data on the consuming power and distribution advantages of Greensboro.

COMMERCIAL GREENSBORO

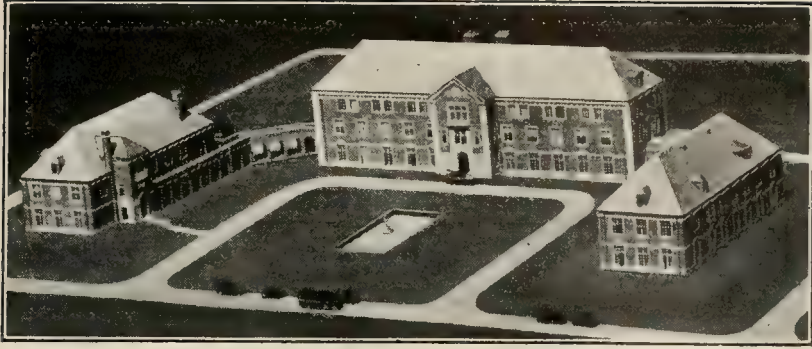

Seven insurance firms have their home offices in Greensboro, and a number of state headquarters for out-of-state companies are located here, causing the city to be called "the Hartford

of the South." Almost every type of insurance coverage is provided locally, giving Greensboro companies an annual premium income of approximately \$19,000,000; over \$450,000,000 worth of life insurance alone is in force by Greensboro companies. These companies have made substantial investment in physical properties in Greensboro and the surrounding section. Their business is steady, their payrolls constant. They provide a stable and diversified commerce enjoyed by few contemporary cities.

Greensboro has adequate facilities for doing business, such as banking, transportation, communication, professional

GREENSBORO PUBLIC LIBRARY

PILOT'S EYE VIEW PILOT LIFE INSURANCE COMPANY HOME OFFICE

services, etc. It is a natural banking center. The North Carolina Bank and Trust Company and the United Bank and Trust Company, with their commercial branches in many other North Carolina cities, administer in Greensboro the financial resources of a wide area and make Greensboro the financial center of the State.

The North Carolina Corporation operates industrial and investment banking establishments throughout the State, while other institutions afford Greensboro a well-rounded financial structure. There are two commercial banks with five city branches, and three industrial banks.

The services of nationally-recognized accountants, accredited appraisers, outstanding lawyers and technical advisers are available as a necessary business aid. The municipal government is organized and equipped to provide the physical

facilities and services needed to promote and safeguard the commercial and industrial safety and progress of Greensboro.

Greensboro possesses unusually well-balanced economic advantages. All her "eggs" are not in one "basket." The sources of income, the facilities for commerce and the potentialities for progress are widely diversified, providing insurance against excessive fluctuations, booms or depressions. Greensboro is a safe, sound, secure and stable place in which to live and work.

Increase in Population in Greensboro

1890.....	3,317
1900.....	10,035
1910.....	13,895
1920.....	19,861
1930.....	53,569

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

BANKS

Here is a Bank for Everyone!

This Bank is not limited to any one class of people. The services of the Morris Plan Bank are broad enough to appeal to and be used by all. Lawyers, clerks, doctors, city employees, railroad men, stenographers, bank officers, laborers, corporation executives, teachers and housekeepers use this Bank constantly as well as many business men, firms and corporations, both large and small.

**We
Pay
5%
on
Savings**

The Morris Plan is not a poor man's bank—not a rich man's bank; it is not a small-loan bank—not a large-loan bank. It is a combination of both. It is a bank for the individual of all kinds—a bank for the business man and corporation—serving their needs whether they involve \$200 or \$5,000.00.

You can repay loans here in easy installments . . . over a period of twelve months. And . . . another feature. We pay 5% on savings, and no investor has ever lost a cent in a Morris Plan Bank.

INSURANCE

Money

for future delivery

Providing money to fill some future need is the modern purpose of life insurance.

Money to

Provide an income for old age, surely and safely.

Educate your children in event you are not living, and assure them of the advantages that only education can make possible for them.

Support a bereaved family, and give them at least a part of the comfort that you had provided when living.

Pay a mortgage, bills, or any obligation that would prove a burden to your family should you die.

Money, provided through comparatively small regular deposits, that will meet *any* future need that money can fill. Instantly available and always safe. A guaranteed savings fund that is created with a purpose and will fill it.

Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

Advertising is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Advertising is the power of an idea multiplied.

RATES UPON APPLICATION

HILL'S

Greensboro Directory of Householders

Occupants of Office Buildings and Business Places

INCLUDING A COMPLETE

Street and Avenue Guide 1931

Copyright, 1931, by Hill Directory Co., Inc.

The named streets are arranged in alphabetical order, followed by numbered streets in numerical order.

Intersecting streets are shown at the actual numbers where they intersect on each of the streets.

House numbers are compiled in numerical order, both sides of street, embracing odd and even numbers, included in one list representative of the entire street.

Following the street numbers are shown the names of the resident occupant or business concern. Places of business are indicated by the nature of the business being stated after the names.

(c) Denotes colored.

Advertising Greensboro

Do you know that a copy of this Directory of Greensboro is being placed in the Directory libraries and among the commercial bodies, Business Men's Clubs, Chambers of Commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

The publishers are doing everything possible to make this Directory a representative city catalog of Greensboro.

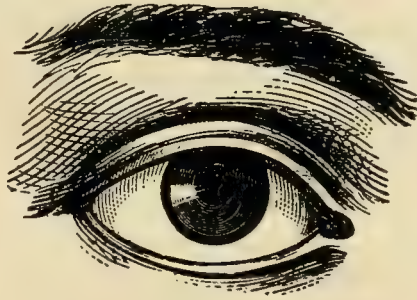

**Are you as prominently represented
as you should be?**

Hill Directory Co., Inc.

PUBLISHERS

8 North Sixth Street (4th floor), RICHMOND, VA.

The EYE is seventeen times
stronger than the EAR.

Research has proven that impressions received through the eye are seventeen times more effective than those received through the ear.

Your advertisement in the City Directory reaches the vision of your prospects all over the city 365 days in the year, because some one is using it every hour in the day.

RICHMOND, VA.

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. - 90% of directory advertising is renewed.

Directory advertising is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

The Publishers of this Directory

This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

Advertising is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Advertising is the power of an idea multiplied.
